Interview with Creative Director, Ebony Contreras (edited excerpt from <http://www.wonderfulwalkablewheaton.com>)

Ebony, what prompted you to open up Curación Nails, Body, and Success Sanctuary™?

Right now, there are mostly either quick service low cost beauty salons or wear-a-robe high end spas. One of my goals was to have a place that doesn't compromise safety and customer experience for price. We have a price range that allows us to be assessable to a large number of folks while still providing a very high level of care and unique experiences not usually found in a reasonable price range.

How is your spa unlike others in the area?

This is actually what I love the most about Curación. What makes us different is so exciting to me and my team. There are actually a number of ways we're different!

1. We're gently Guatemalan themed. All of the beautiful artwork canvases in our sanctuary depict Guatemalan themes. Many of our service offerings are specifically inspired by the Guatemalan culture. Why? Oh – I actually learned a lot about the beautiful country because my husband is an indigenous Guatemalan. What I learned from him really inspired me. The word "Guatemala" means land of trees. There are lots of rich, natural rainforest and other natural landmarks such as lakes and active volcanos that have inspired our service offerings and how we've decorated our sanctuary spa.
2. In addition to our Guatemalan themed services, we offer other unique services. Where else in the DMV can you get an Absinthe manicure, pedicure, facial massage, or table massage? Our Absinthe services include an Absinthe beverage and Absinthe lip balm. We also offer other fun "flavors" such as Cookies and Cream, Blueberry, Pancakes, Chocolate, Coconut Mango, Strawberry, Red Wine, and Men's Top Shelf Whiskey. Plus the Gel Nail Polish we use is free of the big 5 bad chemicals often found in nail

products, requires no sanding of the nail, and that its Cruelty-Free, Vegan Friendly & Solvent-Free. These “little” things really matter to us. We also provide Soothing Leg and Foot Sanctuary Soaks that its best to just experience rather than describe!

3. We Deliver and provide Mobile Spa Wellness Services. We’re one of the only “Mobile” Spa’s in the DC Metro area who are actually a part of a “real” brick and mortar business.
4. We have a 100% guarantee on all of our products and services, both on-site and mobile. Period. I actually didn’t realize just how much our clients appreciated this until we started to receive feedback about how uncommon it was. We always go above and beyond to ensure our clients are happy. If we make a mistake for some reason, we take responsibility. Our goal is to provide an exceptional experience; the actual service is just a part of their overall experience.
5. We regularly partner with businesses, non-profits, schools, and other organizations and do a significant amount of outreach. Pretty much every month we’re giving raffle and other gifts to organizations.
6. Not only do we have our liquor license, but we provide a large variety of beer, wine, cocktails, and other gourmet beverages with the purchase of any service. From what our clients tell us, many of the other spas who serve liquor have only 1 or very limited choices. We even have a signature drink, the Curación Cocktail! Our clients really enjoy that light, sweet beverage.
7. We’re very welcoming and inclusive. Specifically, we are absolutely GLBT friendly. Anyone on the gender spectrum and their families can enjoy valuable and inclusive healing services without feeling anxious or uncomfortable. We also take a lot of pride in being especially welcoming to Nursing Mothers and Seniors. We have some specific free services for those over 80 years old.
8. We offer hygienic “waterless” hot towel manicures and pedicures. We offer organic lavender and tea tree foot baths for those who still enjoy soaking their feet. Plus, our nail services are experienced in ergonomic Lounger Relaxation Chairs so clients don’t have to move from a pedicure table to a manicure table. They stay in one comfortable seat the whole time.
9. We go out of our way for men! We’re the only sanctuary in the DMV with two collections of nail paint specifically formulated and designed for men. We have a healthy looking matte clear coat for men who prefer not to be so colorful! We go out of our way to ensure men are comfortable and treated with respect and care. In general, we’re very gender neutral so we’re honored that we have a larger male clientele than average. We love our men - Plus, they tell us they love us back because we “are really nice and have beer.” Seriously, that’s what our male clients tell us all the time!
10. Although we offer traditional table massage, our most popular service is our serene, affordable, and deeply satisfying 30-minute luxurious seated healing massage with organic coconut oil.
11. While we’re talking about massage, I want to share that we don’t offer massages based on modality/type. Our massage therapist consult with each client to determine which modalities to use in their service. In other words, instead of paying for just a Swedish or just a Deep tissue or so on – you may have a variety of techniques used because your massage is significantly tailored to you and your needs. Additionally, other places in the area that offer massage usually say their 60 minute or 30-minute massage is actually 50 minutes and 20 minutes. However, our 60-minute massage is really 60 minutes, and our 30-minute massage is also a full 30 minutes of hands-on service. We don’t make you pay for that 10-15 minutes you spend consulting with us, enjoying your drink, or whatnot. That’s not how we operate. We are the best value, the safest, the friendliest, and the most welcoming.
12. The combination of services we offer is really unique. Where else can you get help with your resume, receive interview and career coaching, then once you get a job interview, come back to us and get a manicure, pedicure, and natural hair style so you can look your best? Job hunting can be stressful and we can also take care of that with our healing massages! At our core we help people experience happiness and healing in a welcoming environment so we can support their empowerment and healing through nail care, bodywork massage, and career-life coaching for meaningful success, wellness-fitness classes, healing natural hair services, and our stress relieving leg and foot soaks.
